

Surface mounting frame (no screw visible)

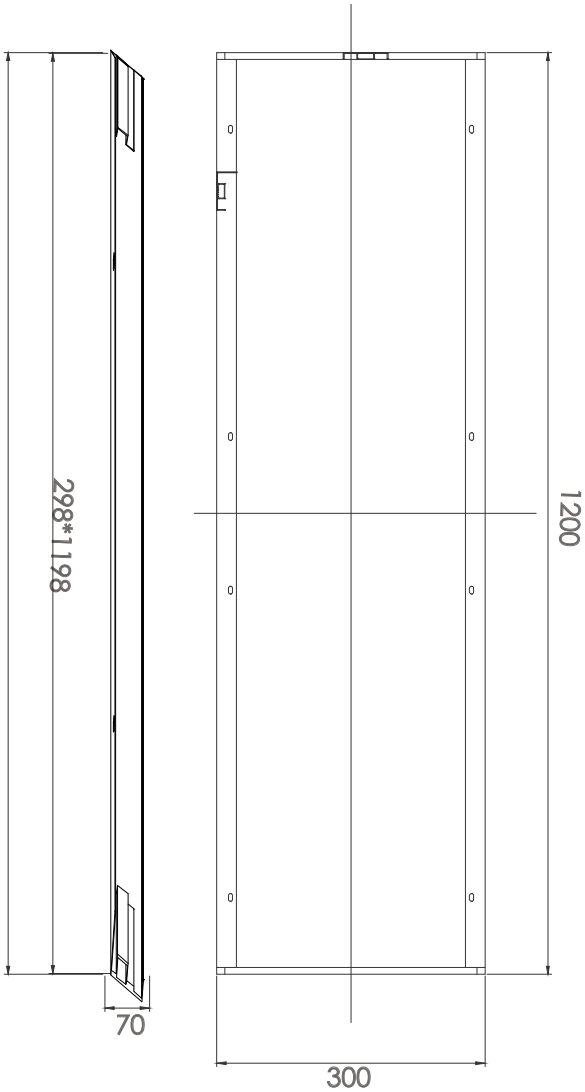

➔ Dimension:

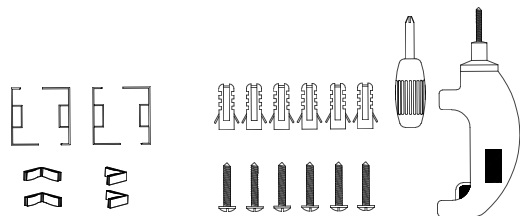

600×600mm

300×1200mm

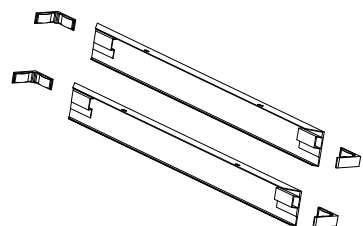

→ Installation:

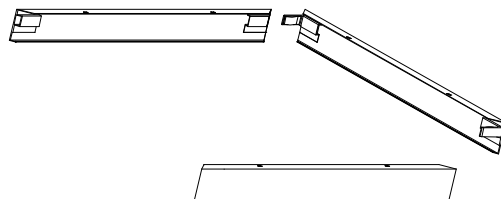

×4 + ×4 + ×4 For 300mm & 600mm led panel installation

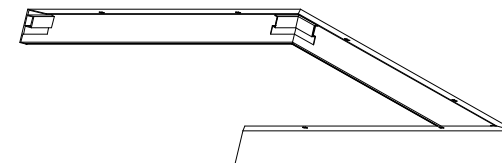

×6 + ×6 + ×4 For 1200mm led panel installation

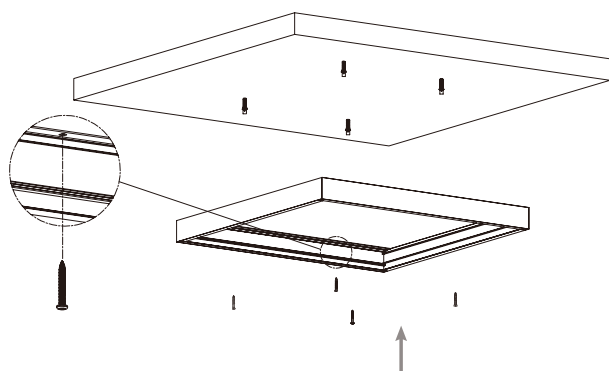

① Take out the connectors and Aluminum frame from package.

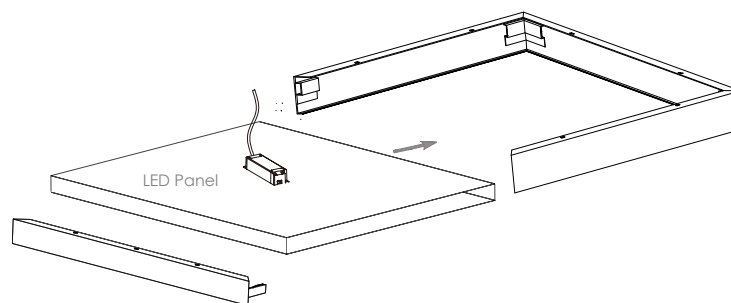

② Assemble the Aluminum frame and fixed by connectors one by one.

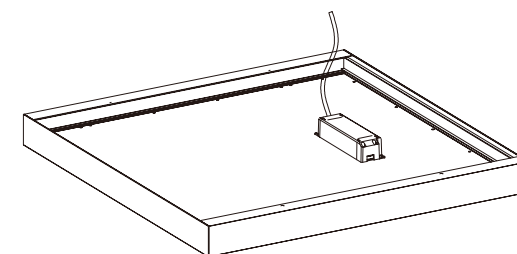

③ Finish assembling the Aluminum frame and test its reliability by hand.

④ Knock the plastic anchor into ceiling, fix the Aluminum frame on the ceiling by screws.

⑤ Take out one frame, connect the panel light to driver, insert the panel light into the frame.

⑥ Make sure the frame and led panel are fixed firmly, then turn on the power
